EXPERIENCE

Web Development Intern <i>Aquesa Solutions Pvt Ltd</i>	Apr 2025 – Jul 2025
* Developed responsive UI components using HTML, CSS, and JavaScript for production web applications. * Integrated frontend modules with REST APIs enabling seamless data exchange between application layers. * Debugged UI rendering issues and optimized CSS layouts to ensure consistent behavior across browsers.	

EDUCATION

JNTU University, ACE Engineering College (ACEG), Hyderabad <i>Bachelor of Technology in Computer Science and Engineering (Data Science)</i>	Nov 2022 – May 2026 GPA: 9.14 / 10
Sri Chaitanya Junior College, Hyderabad <i>Intermediate Education (Mathematics, Physics, Chemistry)</i>	Jun 2020 – Apr 2022 GPA: 9.55 / 10

TECHNICAL SKILLS

* Programming Languages: Python, Java, C
* AI & Machine Learning: Natural Language Processing (NLP), Prompt Engineering, Machine Learning Fundamentals
* Frameworks & Tools: Flask, Django, REST APIs, Git, GitHub, Postman
* Databases: MySQL, MongoDB
* Web Technologies: HTML, CSS, JavaScript, React
* Cloud Basics: AWS Fundamentals

PROJECTS

DidactAI – Intelligent Learning Insight System <i>Python, Flask, MySQL, NLP</i>	2026
* Built an AI-driven adaptive learning platform that generates personalized quizzes based on user learning patterns. * Applied NLP techniques to analyze learning content and dynamically adjust quiz difficulty levels. * Engineered REST APIs and backend services to manage quizzes, user progress, and learning analytics.	
ResumeIQ – AI Based Resume Analysis & Matching System <i>Python, Flask, NLP, MongoDB</i>	2025
* Created an NLP-based system to parse resumes and extract relevant technical skills and keywords. * Utilized semantic similarity techniques to match resumes with job descriptions and rank candidate relevance. * Constructed backend APIs and structured prompts to process resume data and generate analysis results.	
Diabetes Prediction System GitHub <i>Python, Django, Machine Learning</i>	2025
* Built a machine learning based diabetes prediction system using Python and Django. * Processed user medical parameters and generated predictions through an integrated ML pipeline. * Connected trained ML models with Django backend to provide real-time prediction results via a web interface.	

ACHIEVEMENTS & CERTIFICATIONS

* TCS CodeVita: Ranked 2499 globally out of over 537,000 participants (2024)
* Smart Interviews DSA: Top 5000 nationwide (2024)
* Eduskills: Certified as AWS Academy Graduate (2025)
* Wipro TalentNext – Java Full Stack Development (Core Java, OOP) (2025)
* NPTEL Elite: Joy of Computing Using Python (2023)
* NPTEL Elite: Java Programming (2024)
