CAREER OBJECTIVE

Motivated and detail-oriented Computer Science student specializing in Data Science. Passionate about building scalable and impactful software solutions through continuous learning and hands-on projects. Seeking an opportunity to contribute technical skills, problem-solving ability, and adaptability in a growth-oriented organization.

EDUCATION

ACE Engineering College (ACEG), Hyderabad <i>Bachelor of Technology in Computer Science and Engineering (Data Science)</i>	Nov 2022 – Apr 2026 CGPA: 9.14 / 10
Sri Chaitanya Junior College, Hyderabad <i>Intermediate Education (MPC)</i>	Jun 2020 – Mar 2022 CGPA: 9.55 / 10
Vidyaranya High School, Hyderabad <i>Secondary School Certificate</i>	Jun 2019 – Apr 2020 CGPA: 10.0 / 10

TECHNICAL SKILLS

- **Programming:** Java, Python, C
- **Computer Science Fundamentals:** Data Structures & Algorithms, OOP, DBMS
- **Frontend:** HTML, CSS, JavaScript
- **Database:** SQL
- **Tools:** Git, GitHub

PROJECTS

DidactAI – Intelligent Learning Insights and Student Assistant <i>Flask, React JS, NLP, REST APIs</i>	2026
• Engineered an AI-powered learning assistant using Flask and React with multi-level summarization (basic, detailed, conceptual) using Gemini API and FLAN-T5 fallback • Built a quiz generation system using Gemini API with FLAN-T5 fallback to maintain uninterrupted question generation during API failures. • Developed a performance analytics dashboard using React and Recharts to track accuracy, difficulty trends.	
Spam Detection System using Machine Learning <i>Naive Bayes, Random Forest, TF-IDF, Scikit-learn</i>	2025
• Developed an ML-based spam detection system using Naive Bayes and Random Forest classifiers trained on Enron email and SMS spam datasets • Implemented NLP preprocessing, TF-IDF vectorization, and metadata-based feature engineering including link count, uppercase ratio, and exclamation frequency to improve spam classification accuracy • Built an end-to-end prediction pipeline with automated text preprocessing, feature extraction, probability-based spam prediction, and confidence score generation using Scikit-learn pipelines	
ShopSphere – E-commerce Web Application <i>HTML, CSS, JavaScript</i>	2024
• Developed a responsive Amazon-style e-commerce web application with product listing, cart management, checkout flow, order tracking, and payment summary features using HTML, CSS, and JavaScript • Implemented dynamic DOM manipulation, local storage, reusable components, and interactive user functionalities to simulate a real-world online shopping experience.	

ACHIEVEMENTS & CERTIFICATIONS

- Solved 300+ DSA problems on LeetCode
- Smart Interviews DSA: Ranked among Top 5000 participants nationwide (2024)
- Certified in Communication Skills Test (Mepro) (2025)
- NPTEL Elite Certification in Java Programming (2024)
